DETAILED ACTION

Claims 1-52 are pending in this application.

Election of Species

Claims 1 and 2 are generic to a plurality of disclosed patentably distinct species comprising, for example the type of sensory regimen and how it is delivered i.e. orally or topically. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species from the elected group, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Upon the election of a single disclosed species (e.g., Example 1, pages 12-14), a generic concept inclusive of the elected species will be identified by the Examiner for examination along with the elected species. Moreover, whatever, specific compound is ultimately elected, Applicant's are required to list all claims readable thereon.

Papers related to this application may be submitted to group 1600 by facsimile transmission. Papers should be faxed to group 1600 fax machine at (703) 308-4556. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30; November 15, 1989.

Disposition of Claims

Claims 1-15 are under election of species. Claims 16-52 are withdrawn.
